3.5 years of experience

LOCATION

Sydney (George St), Australia

QUALIFICATIONS AND AFFILIATIONS

Bachelor of Engineering (Honours Class 1), Civil Engineering with Architecture, University of New South Wales, 2022

Green Star Accredited Professional (Buildings)

Young Engineers Australia Sydney – Committee (2021- 2023)

PROFILE

Christopher is a sustainability consultant that is passionate about contributing to the continual improvement and innovations in the built environment. He enjoys working at the portfolio and precinct level to enact meaningful change. He holds a Bachelor of Engineering (Honours Class 1) majoring in Civil Engineering with Architecture from the University of New South Wales.

He has developed a client centric approach to the planning and delivery of capital infrastructure projects from performing as an assistant project officer at the Department of Defence on projects totalling \$1.3B.

PROFESSIONAL EXPERIENCE

– Green Star Performance, Charter Hall Group

Christopher delivered Charter Hall's Green Star Performance FY22 certification for their Retail and Industrial portfolios involving 250+ assets. Christopher coordinated and managed the energy and water performance aspects of the portfolios. He was involved with further works for Charter Hall's Green Star Performance Portfolios to align pathways and strategy with the Performance V2.0 tool.

– Green Star Performance, QIC

Christopher delivered QIC's Green Star Performance FY23 certification for 27 office and shopping centre assets targeting a 3-star rating. Christopher worked with ESG managers and facilities management to acquire and develop the relevant documentation for the rating submission.

– Ausgrid GRESB Infrastructure Assessment, IFM Investors

Christopher has supported Ausgrid's GRESB Infrastructure Assessment annually since their inaugural submission in FY21 which involved developing internal procedure for data collection, materiality assessments, gap analyses, submission compilation and mock scoring across the GRESB assessment indicators. Chris took a leading role in managing the submission since FY22.

– BaptistCare Vertical Village and Macquarie Park Master Plan

Christopher supported the development for the ESD Concept Design Report for the SSDA submissions for both the Vertical Village and Masterplan for BaptistCare. He also helped deliver the BASIX strategy and NatHERS works for the Vertical Village.

– Ivanhoe Estate B3, Frasers Property

Christopher delivered the BASIX Strategy and NatHERS results for the property. This was paired with further analysis on the energy, water, and thermal comfort of the residential structure.

– Mayfield Gardens Master Plan

Christopher reviewed current and proposed site infrastructure to support the development of a sustainability strategy based off the site's potential. This strategy revolved largely on the water and other ecological opportunities of the site to facilitate decision making in the master plan.

PROFESSIONAL HISTORY

**Department of Defence, Assistant Project Officer
Capital Facilities and Infrastructure**

2020 - 2022
