- Green Star Associate
- Young Engineers Australia Sydney – Committee (2022 - Present)

Location

- Sydney, NSW

Professional History

- Department of Defence, Assistant Project Officer, Capital Facilities and Infrastructure (2020-2022)
-

Relevant project experience

BaptistCare Vertical Village and Macquarie Park Master Plan

- Christopher supported the development for the ESD Concept Design Report for the SSDA submissions for both the Vertical Village and Masterplan for BaptistCare. He also helped deliver the BASIX strategy and NatHERS works for the Vertical Village.

Low Carbon Precinct Study, Inner West Council

- Christopher supported the development of the Low Carbon Precinct Study. This study looked to create an evidence base to develop innovative planning controls to support low carbon precincts.

Ivanhoe Estate B3, Frasers Property

- Christopher delivered the BASIX Strategy and NatHERS results for the property. This was paired with further analysis on the energy, water and thermal comfort of the residential structure.

Mayfield Gardens Master Plan

- Christopher reviewed current and proposed site infrastructure to support the development of a sustainability strategy based off the site's potential. This strategy revolved largely on the water and other ecological opportunities of the site to facilitate decision making in the master plan.

Ausgrid GRESB Infrastructure Assessment, IFM Investors

- Christopher supported Ausgrid's first GRESB Infrastructure Assessment (FY21) submission which involved developing internal procedure for data collection, materiality assessments, gap analyses, submission compilation and mock scoring across the GRESB assessment indicators.

Green Star Performance Recertification, Charter Hall

- Christopher delivered Charter Hall's Green Star Performance FY22 recertification for their Retail and Industrial portfolios involving over 270 assets.
