Vietnam	16778.0398	17832.1793	17599.0000	18072.0000	Dong

Notes:

From 1 January 2020, we have used the exchange rates from the Reserve Bank of Australia (<https://www.rba.gov.au/statistics/frequency/exchange-rates.html>). In previous years we have used exchange rates sourced from the Commonwealth Bank of Australia (https://www.commbank.com.au/international/foreign-exchange-rates.html?ei=hp-prodnav_INT-FXrates).

The Reserve Bank of Australia and the Commonwealth Bank publish rates for different countries.

If we do not publish a rate for the country or year you need, you can use an appropriate exchange rate provided by:

- a banking institution operating in Australia including, where relevant, the banking institution through which your foreign income is received
- another reliable external source.

Keep the rate used and the source of rates with your records. Be mindful that you cannot obtain an average rate (or rates) of exchange from an associate, or from yourself, unless otherwise notified by us.

* The Reserve Bank of Australia has recommenced reporting on the Swiss franc after a period of absence, part way through the financial year 2024–25. For this reason, the average rate for the year ended December 2025 is not available for this currency.

Our commitment to you

We are committed to providing you with accurate, consistent and clear information to help you understand your rights and entitlements and meet your obligations.

If you follow our information and it turns out to be incorrect, or it is misleading and you make a mistake as a result, we will take that into account when determining what action, if any, we should take.

Some of the information on this website applies to a specific financial year. This is clearly marked. Make sure you have the information for the right year before making decisions based on that information.

If you feel that our information does not fully cover your circumstances, or you are unsure how it applies to you, contact us or seek professional advice.
